

Sani Floor®
Self-Washing Floor Systems®

Safer Every Step Of The Day!

Improving Safety and Sanitation

The Sani-Floor custom designed anti-fatigue and non-slip grate system is used to provide a comfortable and safe working surface. Food and debris fall through the grate openings to contain the mess at its source.

You'll save significant time and money at end-of-day clean up when all you need to do is run the grates through the dish machine.

Choose the **Self-Washing Floor System** where debris is a problem; the **Standard Floor Troughs** where liquids pool up; and the **Instant Safety Floor** in any area that is slippery and unsafe.
